

Dear Parents and Students

This document is intended to assist you in structuring a study plan for your upcoming school exams and can be also used for your final external exams in Term 4.

You will notice that the first few pages are for you to complete – with the support of your subject teacher – so that you have an outline of each standard and subtopics you are being examined on. You can also note topics that you feel less confident with as well as pointers for where to find the content to revise.

An **example** of this sheet has been completed for you as a guide.

There are also several pages of a printed weekly planner. For each day it will be useful to mark-in the activities of each day including school, extra-curricular activities and even social events. With this completed, revision topics can be scheduled in and checked-off as the exams approach. It is vital that you aim to achieve a balance of revision and reward time in order to manage your stress effectively.

Lunchtime workshops are now taking place to help with this process – they are advertised in the daily notices or you can contact John Meeske at jmeeske@lbc.school.nz for more information.

All the best,

John Meeske

Exam Subject	Standards being Assessed:	Subtopics:	Notes: areas of weakness, where to find the relevant notes to study etc.
L2 Chemistry Date/Time of Exam: 1st May 2015 9:00am	2.4 Structure and Bonding	Lewis diagrams Shapes Polarity Enthalpy . .	Enthalpy p6 Workbook
	2.5 Organic	Naming Isomers Rxns – Alkanes, alkenes	Organic reactions Onenote Doc L2 Chem p27->
	2.6 Reactivity	Types of reaction Equilibrium Acids and Bases
